Heidelberg GT / GTP 13" x 18" Foiling Press Heater Plate

SF Services honeycomb heated bed plate assemblies are a unique design, manufactured specifically for Heidelberg platen 13x18 machines.

Made from high grade material and machined to high tolerances, we have been making these heater plates to our own designs for over 30 years and have many very satisfied customers, we can supply various thickness plates and power connections for your local supply.

All our honeycomb heater plates are made from high grade Aluminium which performs exceptionally well under loaded running conditions and remains stable in both shape and size during operation.

These chase plates come with the toggle Hook honeycomb formation as standard to fixate your dies in place. Bunter Fixing style plates are available – please enquire

Available also are embossing plates and consumables

Also we can offer a temperature controller unit if required, see below
