## NUMBER PLATE EMBOSSING PRESS

PU 35T - 230

### EMBOSSING PRESS PU 35T-230

Small, light and quiet press for embossing of number plates.

The press requires a power supply of 230V, enabling it to be used in every workplace, even without an industrial power supply. It can be used for embossing all kinds of number plates. The high efficiency of the press significantly reduces production costs.

#### BASIC PARAMETERS:

- embossing time: 2,2 s.,
- capacity: 370 plates per hour,
- embossing power: 35 T (350 kN),
- small footprint,
- power supply: ~230 V/50 Hz,
- power consumption: 1,5 kW
- the press is equipped with the pressure regulator

#### OPTIONS:

- various kinds of clapper dies according to individual requirements,
- clapper dies rack (different variants adjusted to the number of clapper dies),
- embossing frame facilitating correct production of number plates in accordance with the standards of a given country,
- special table.
