MK 1060ST 760mm x 1060mm Automatic Platen Foil Stamping, Embossing + Cutting & Creasing Machine

High Speed, High Accuracy, High Stability, High Returns!

Automatic Foil Stamping / Embossing Speed 7,500 sheet/hour

The MK 1060ST is one of Masterwork's finest automatic industrial foil stamping and embossing machines. This piece of foil stamping equipment will allow your packaging company to compete with the cream of the crop as it offers easy operation and is extremely durable. The MK 1060ST makes operation easier and more efficient by featuring a set of user-friendly electronic controls.

The MK 1060ST is a machine offering a wide range of foil stamping, which has transversal and longitudinal two direction foil feeding functions.

Besides the automatic control system, more pneumatic control systems are used, for example the vacuum feeding system, pneumatic jogger, pneumatic sample picking, as well as pneumatic delivery

When it comes to enhancing the already outstanding image of your packaging company it has never been easier than through the use of the MK 1060ST.
